## SICKNESS/INJURY, TREATMENT, AND MORTALITY

Operation name:	

GUIDANCI

## Use this sheet to record:

All treatments, whether preventive (e.g., vaccination) or therapeutic (e.g., antibiotics).

Sickness/injuries observed at any time- this could be during routine herd observations or routine handling - and the outcome.

All cattle mortalities - whether found dead or culled - and the cause of death.

Lameness must not affect more than 2% of the herd.

Date	Animal/Group ID	If you treated the animal(s):				If sickness/injury was observed:		If the animal died:	
		Substance given	Method of administration	Duration of administration	Employee giving treatment	Type of sickness/injury (e.g., lame, thin, respiratory)	Outcome	Was the animal: 1) found dead or 2) euthanized?	Cause of death / reason for euthanasia
